## How to Prevent Debit Card Fraud

According to Ramsey Solutions, here are some easy ways to keep your personal information – and your money – safe and sound:

1. Check your online accounts often.
2. Whenever possible, use your debit card as “credit” at the cash register. The less you enter your PIN number, the safer you are.
3. Opt for ATMs at your financial institution over stand-alone ATMs (like at a gas station).

4. Always use a secure network when making online purchases and, when possible, use a credit card instead of a debit card.
5. Only make purchases from reputable merchants (be sure to check them out!)
6. Sign up for fraud or ID theft protection.
7. Always check card readers when you're out and about. If it looks off, don't use it!
8. Go paperless – electronic statements are much more secure than paper.
9. Always dispose of sensitive information properly – the shredder is your new best friend.

If you're concerned you may have been a victim of fraud, contact us immediately and/or the phone number listed on the back of your card. It's certainly better to be safe than sorry!
